7. Mr. Pforzheimer has informed [redacted] and Dr. Chadwell of a report that Mr. David Teeple is about to become a special assistance to AEC Chairman Strauss. Mr. Teeple was formerly with the Manhattan District and a member of the staff of the Joint Congressional Committee on Atomic Energy in the 80th Congress. He was subsequently a member of Senator Hickenlooper's office and was the key man in the Hickenlooper investigation of the Lilienthal regime at AEC.

8. Sen. Prescott Bush (R., Conn.) has phoned the DCI and will meet with him on 26 October to discuss certain operational matters.

9. In connection with the trip of Mr. Walsh, Counsel to the House Baltic Committee, to Newfoundland to view certain films of the Soviet take over of the Baltic countries, Mr. Walsh informed me that he understood that it may be necessary to purchase certain of these films, and inquired whether CIA would be interested in paying part of the bill in the light of his conversations with Mr. Abbott Washburn. I informed Mr. Walsh that I could not give him a definite answer on this matter, although I was rather doubtful whether CIA could invest in these films; but in any event I suggested that any discussions on this matter be put off until after he had viewed the films and found out what was available.
